### 6. Governance, Leadership and Management

#### 6.1 State the Vision and Mission of the institution

##### :Vision:

Vision of the college is to cater value based education for all round development of rural and tribal students, to make them capable to touch the new horizons of knowledge and employment for their better future, well as to emerge responsible citizen for the service of community.

##### :Mission:

- To provide education for enlightenment and intellectual advancement of the rural and tribal students.
- To pursue the excellence in higher education.
- To generate manpower to be absorbed in political, social and economical policy development of India.

#### 6.2 Does the Institution has a management Information System?

No, but the office is made fully automated with adequate computer systems and library is also provided with the computers for library automation having LIB-Man Software.

#### 6.3 Quality improvement strategies adopted by the institution for each of the following

##### 6.3.1 Curriculum Development

- Institute follows curricular development by Dr. B.A.M. University, Aurangabad but the institute contributes in its development and restructuring by identifying the points by which the curricular quality can be improved and institutional objectives can be achieved.
- Feedbacks on curricula are collected, analyzed and difficulties/corrections are suggested to BoS by the faculty members in the form of formal and informal ways.
- It also tries to identify sufficient resources, support, and others factors in the effective and successful implementation of the curriculum.
- The teachers of the institution contribute to the Curricular Designing of the university through their participation in BoS as a member or chairman and also by attending the workshops on Curricular Development.

##### 6.3.2 Teaching and Learning

The institution is always aggressive to improve the quality of teaching and learning through: **Academic Calendars:** Institutional Academic Calendars are prepared to ensure that academic activities, teaching learning, evaluation schedule etc. are well planned along with this

departments are also encouraged to prepare their annual action plan of activities by considering and following Institutional Academic Calendar for curricular as well extra curricula activities.

**Institutional and Department Quality Objectives:** Every department of the institution sets its Quality Objectives related to results, curricular, co-curricular and extra-curricular activities for every academic year.

**Time table:** teaching time table of the institute is set by the concern TT committee in concern with departments, such prepared TT is forwarded for approval of Principal, these approved TT is strictly followed for teaching learning purpose.

**Teaching Plans:** Subject teachers are promoted to prepare teaching plan term wise as per the teaching time table of the paper they teach, these TP are verified by concern department head and forwarded to Principal for approval. Such approved TP are then implemented and monitored by the concerned head of the department.

**Promotion of Innovations:** IQAC promotes innovations in teaching learning methods and verifies the same through teaching plan. A record of lectures conducted using ICT tools is maintained in the register.

**Study tour:** The college believes in imparting relevant practical based education which helps the students in understanding the subject, hence, departments are encouraged to arrange study tours and field visits at educationally important places like industry, bank, insurance offices, academic institutes etc.

**Monitoring of teaching process:** IQAC monitors teaching process of every department through regular formal and informal communications with teachers and department head.

**Mentor Mentee scheme:** Students are allotted to teachers under Mentor Mentee scheme. These students are regularly counseled by their mentor on academic, career and psycho-social issues.

**Academic Audits:** The IQAC has trained some of the teachers from the college for conducting academic audits. The trained teachers visit each departments as per the schedule to verify the teaching-learning process & related activities. The concerned department and its teachers are made aware of the positive and negative aspects of the process. Suggestions for improvement are also given and the follow-up is taken accordingly. The record of the same is maintained at IQAC.

**Feedback:** Students' feedback on teachers is one of the important means to bring improvement in Teaching-Learning process. Hence, the IQAC of the institution has prepared the questionnaire, keeping in view the points for improvements in different aspects of teaching. 'Students' feedback on teachers' is conducted after every semester by the Feedback

Committee. The feedback negative or positive is analyzed and communicated to the concerned teacher.

**Identification of Slow and Advanced Learners:** every department ensures identification of slow and advance learners which are provided teaching assistance through remedial coaching and other aspects.

### 6.3.3 Examination and Evaluation

**Continuous Assessments:** Internal Assessment through tests, tutorials, projects, open book tests, term end examination on regular planed basis is conducted.

**University Examinations:** Conducted as per the norms and regulations of the Dr. B.A.M. University Aurangabad.

**Appointment of Internal Squad:** For smooth functioning of exam and maintenance of proper decorum, college appoints an internal squad during internal and university exam.

**D-CAS:** University has authorized to the JES College to evaluate the FY, SY and TY answer script of all the UG programs. In this link, college regularly send evaluator of the respective subject.

### 6.3.4 Research and Development

Considering the value of research in the academic development, the institution motivates its teaching staff and students to undertake various research activities and projects.

The Institution tried to bring quality improvement in research and development through the activities elaborated under:

**Research Project:** The faculty members are promoted to submit research project proposals to various funding agencies, as a result during 2015-16, 10 different proposals are submitted to agencies like UGC and University for funding, number of them are under review process.

**Research papers:** Faculty members are always inspired to publish their research papers in high quality research journal and books with ISBN series.

**Conference/workshop:** The faculty members are motivated to participate in national/international level conferences, seminars, symposia, workshops, etc. for research presentations.

**Faculty development:** Faculty members are encouraged to attend FDP, Orientation, Refresher and Short Term Courses for up gradation of knowledge at various HRDC.

**Student's project:** students are boosted to undertake research projects at departmental level under the guidance of concerned faculty members and present the outcome at festivals like Avishkar or publish it in research journals.

**PhD or Post PhD work:** Faculty members are inspired to persue research work leading to award of PhD, and if already awarded then try achieving supervisor recognition.

## 6.3.5 Library, ICT and physical infrastructure/ instrumentation

- Library is regularly updated by purchasing the required text, reference books, journals, e-journals and study material during the AY 2015-16 to upgrade the library.

<i>Title</i>	<i>Added during 2015-16</i>

- Computer facility available in the library for availing the facility of digital knowledge.
- Faculties are encouraged to use ICT assisted teaching and learning.
- Usual purchasing of necessary equipments for laboratories.

## 6.3.6 Human Resource Management

- Teaching and Administrative Staff members are well trained in using ICT applications.
- Faculty members are always encouraged to update their knowledge by attending conferences, seminars, refresher course, orientation programs etc.
- Faculties are entrusted with responsibilities according to their capabilities. Additional charge for various curricular and extension activities are given through various committees.
- The college has the system of self-appraisal for the teaching and non-teaching staff members. Self appraisal and evaluation report covers teaching, research, extension service and other contributions of every individual.

## 6.3.7 Faculty and Staff recruitment

The college strictly follows recruitment rules laid down by the UGC, State Government and Dr. B.A.M. University, Aurangabad for all kind of recruitment which includes regular, part-time and clock-hour basis appointments.

## 6.3.8 Industry Interaction/ Collaboration

- ✓ IQAC motivates departments to undertake industrial visits, field trips and collaboration with different sectors, some of the outcome are
- ✓ The college has signed MoU with L.B.S. College, Partur for academic cooperation. MoU with Seed Pathology Lab, Department of Botany, Dr. B.A.M. University for plant diseases identification, fungi identification training purpose to our students.

## 6.3.9 Admission of Students

- Admissions to different programs of Arts, Commerce and Science faculties are given by strictly following the rules and regulations set by government and Dr. B.A.M. University.
- Admissions are given as per norms of Dr. B.A.M. University Aurangabad.

## 6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

The Dr. B.A.M. Aurangabad has established a D-CAS wherein papers assessment centers are established at District College; the infrastructure is updated at the college for all examinations of the University

## 6.10 What efforts are made by the University to promote autonomy in the affiliated/constituent colleges?

Not Applicable

## 6.11 Activities and support from the alumni association.

Departments are calling to alumni students who are persuing their career at different establishments for sharing their experiences with students.

Alumni helped students in career development and guided them for academic progression and placement assistance.

The ex-students of college gave coaching to students in sports.

#### 6.12 Activities and support from the Parent-Teacher Association.

Although institution have no such formal association still institute regularly on annual basis organizes Student-Teacher-Parent Meet for discussion on issues, problems of students and opportunities for improvements. During AY 2015-16 Student-Teacher-Parent Meet was organized during Sept 2015, Shri. Dhananjay Akat, Director, Reliable Academy, Aurangabad was the guest of honor who guided students about career after completion of education.

#### 6.13 Development programmes for support staff.

Support staff was encouraged to participate in different activities of the institution and departments for their academic development.

Support and non teaching staff were regularly assisted on personal basis for gaining knowledge of ICT and increasing computer use in their daily life.

#### 6.14 Initiatives taken by the institution to make the campus eco-friendly.

**Tree plantation:** Department of Botany in association with NSS and other students have planted 484 plants of local and ornamental species in and around college campus.

**Hazardous waste management:** Institute has made provision for management of chemical and hazardous waste generated through science laboratories during conduction of practical sessions.

The institution promotes eco-friendly environment by implanting various displays of environment consciousness.

NSS department celebrated Environment Day and organized campus cleaning programmes.

## Criterion-VII

## 7. Innovation and Best Practices

7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

The college consistently works on global ideas useful for environment and adaptable, useful to the society, hence with this vision,

**Department of commerce** used the field work/onsite training to students of UG. **Department of Physics** guided students for gathering information regarding solar facilities available at local residence.

**Department of Microbiology** regularly gives an opportunity to students for interaction and work at pathology laboratory.

**Zoology department** have given an opportunity to students for learning Fish fauna at and near water bodies and encourage to morphological study of birds.

**Botany department** used to educate the students about plant taxonomy through field tours. Plant pathology and disease identification was studied on the diseased crop field.

**Department of Social Science and Language** used to ask students for conducting survey on social aspects and to develop communication skill.

7.2 Provide the Action Taken Report (ATR) based on the plan of action upon at the beginning of the year.

Plan of action	Action taken
To collect feedback on syllabus and teaching staff from stakeholders	Feedback collected from Students on Syllabus as well as Teaching analyzed and correction are suggested to respective staff members.
PBAS collection and analysis	PBAS of every faculty members collected analyzed and summery, suggestions are handed over to respective staff member.
Updating of Institutional website	Different activities, news, information support services, AQAR uploaded on College website
Students parent teacher meet	Students parent teacher meet organized during September 2015.
Health check up	Health check up was arranged for students, woman and domesticated animals during the NSS camp.

Research project submission	10 projects have been submitted to different funding agencies
Gender sensitization programs	Gender equality and sensitization programs arranged at the college level for both male and female students
Academic and Administrative Audit	AAA conducted of every department and suggestions findings are submitted to every department for improvement.

### 7.3 Give two Best Practices of the institution.

Institute is always engaged in executing multiple academic and social activities for this region, two of them entitled as

1. Construction of soil dam with the help of students at Pimperkheda town Tq. Mantha
2. Farm Soil Testing.

### 7.4 Contribution to environmental awareness/protection.

- Environment science as special compulsory paper to SY students of every program is set by Dr. B.A.M. Aurangabad.
- Botany department and NSS unit has planted 223 trees of local and ornamental species
- Botanical and medicinal garden developed at the college.
- Poster and banners explaining environmental awareness stucked at institution walls.

### 7.5 Whether environmental audit was conducted?

Yes

No

### 7.6 Any other relevant information the institution wishes to add.

-----

## 8. Plans of institution for next year.

- ✓ Feedback on syllabus, teacher and infrastructure collection from various stakeholders.
- ✓ Increase student centric activities.
- ✓ Awareness drive about environment and workshop students
- ✓ ICT awareness and training workshop for teaching and non teaching staff
- ✓ Organize workshop on NAAC framework
- ✓ Fetching grants from various government agencies by submitting proposals.
- ✓ Increase in number of MoU with institutions and industries
- ✓ Boost for publication of research paper in high impact and referred journals

- ✓ Promote staff for attending conferences
- ✓ Promote every department to arrange academic and industry expert guidance
- ✓ Organization of Conference
- ✓ Increase the number of self certified certificate courses

**Best Practices- I**

**Title of the practice: An activity a Year for welfare of Society (Construction of Soil dam at Pimperkheda Village)**

**Goals:**

- Try to minimize the water scarcity issue of this region
- To increase the capacity of water storage at dam side.
- Increase the water recharge capacity so as to increase ground water level of wells nearby dam.
- Provide an opportunity for biodiversity to regenerate at the bank of soil dam.

**Context:**

Institute insist on carrying an activity every year for the welfare of society, under this title we have carried an activity of social interest entitled **Construction of Soil dam at Pimperkheda Village**. The purpose of water resources work decided to provide the sufficient drinking and agricultural water in the Pimperkheda village. In rural and hilly area like Pimperkheda agriculture water supply is one of the important issues, considering this fact Swami Vivekanand Senior College, Mantha constructed soil dam summer season. Pimperkheda village is located 13 km from Mantha. High exploitation of groundwater, extensive demographic, climate changes predictable and lack of water management renders the scarcity of water.

**The Practice:**

With the participation of Institute volunteers and villager's shramadan soil dam was constructed.

**There are some technical conceptuality worked out like**

**Soil:** Major portion of the Pimperkheda village with shallow clay soil and black soil, having thickness from 50 to 200cm, as well alluvium soil. Black soil covered the gravel clay loam with sandy thin veneer form.

**Geology:** The surface geology is characterized by (Deccan trap) basalt and recent alluvial deposits. Alluvial deposits are underlain by bedrock. The alluvial deposits strata's occur as gravels, sand, silts and clays along river banks as well as bed. The depth of the alluvium (between 1 and 4ft) is generally controlled by the topography of the underlying basalt hard bedrock. It comprises beds and lenses of sands, gravels and boulders in a matrix of clays.

Salient Features of Ground Water Exploration of Mantha

**Formation:** Basalt

**Depth:** 195.65-200.2 mbgl

**SWL:** 50 mbgl

**Discharge:** 0.38 lps

**Climate and Rainfall Pattern:** The Mantha taluka has been experiences three seasons in a year. The rainy season (monsoon season) starts from June and lasts up to the end of September, while October and November are the post monsoon season. This is followed by the cold season from December to February and the hot season from March to the end of May. In summer the maximum temperature reaches as high as 43<sup>0</sup>C while in winter the minimum temperature is about 12 degrees centigrade. Sometimes due to cold waves over northern India, temperatures may drop to about 7<sup>0</sup>C. May and December are the hottest and coldest months of the year respectively. The average annual rainfall in the district is below 800 cm. Rainfall is not uniform in all parts of Mantha region.

**Recharge Structures:** To harvest water where it falls, slow down the surface flow and increase recharge in aquifers in aquifer recharge zone. The catchment area to protect aquifers, improve water availability for all and improve base flows in the river. It is the base flows that contribute significant part in drought. In this study area of Pimperkheda village construction of soil dam for well groundwater recharge in around areas. The length of the deepening and widening should be decided based on surface run off calculations and technical measurement of size of the structures are 95 meter in length and wide size in 29 meters and 1.60 meter depth. Water storage capacity of this soil dam was 4,41,000 cm<sup>3</sup>. Divisional Officer Mr. Arvind Lokhande visited to this soil dam and appreciated the effort taken by our institute volunteers and villager's

**Evidence of success:**

Efforts taken in soil dam construction project has resulted in increased storage capacity of water at dam basin and increment in water level of the dug well nearby the catchment area of soil dam, past experience of the locals states that even during the month of September and October peoples don't find flowing water however on completion of this project water storage has become regular till January month. The other aspect of evidence is recognition of institute with award entitled *Best Unit of Dr. B.A.M. University* for such holistic social contribution.

**Problem encountered and resources required:**

This project being one of the holistic work hence very few hurdles have come across like. Due to summer season high heat and temperature have restricted work time, drinking water issues etc.

**Best Practices- II**

**Title of the practice: Farm Soil Testing**

**Goals:**

- To provide an index of nutrient availability or supply in a given soil.
- To predict the probability of obtaining a profitable response to fertilizer application.
- Low analysis soils may not always respond to fertilizer applications due to other limiting factors. However, the probability of a response is greater than on a high analysis soil.
- To provide a basis for fertilizer recommendations for a given crop.
- To evaluate the fertility status of the soil and plan a nutrient management program.

**Context:**

In agriculture, a soil test is the analysis of a soil sample to determine nutrient and contaminated content, composition, and other characteristics such as the acidity or pH level. A soil test can determine fertility or the expected growth potential of the soil which indicates nutrient deficiencies, potential toxicities from excessive fertility and inhibitions from the presence of non-essential trace minerals. Keeping this view in mind camp of farm soil testing was organized by the Swami Vivekanand Senior College with joint venture of IFFCO, Jalna.

**The Practice:**

All the farmers of the Pimperkheda village were called to avail the facility to be provided by our college one day before. Villagers have been told the methods to collect soil sample one day before. Villagers collected soil in the given bag on which name of the farmer, date of collection, soil colour, previous season crop and crop to sow in next season were noted on the bag. IFFCO company officer tested all the samples in the mobile soil testing van. The results of soil status has been given to each farmer. Officer also gave recommendation to each farmer which is helpful for the next crop to be grown.

**Evidence of success:**

Increased interest of village farmers has become an evidence of success for this activity. Farmers got health card of their farm soil. They agreed to follow the instruction and care that is to be taken while next crop. All farmers were egorous to know about their soil health.

**Problem encountered and resources required:**

This extension activity is to be conducted during the busy agriculture schedule of farmers hence it's planning and implementation required some extra efforts but still it is appreciable to see that all volunteers of the institute members have made it a great success.
